

ypingmoe

Full-stack engineer building SaaS and AI-powered products.

github.com/ypingmoe · ypingmoe@gmail.com · t.me/ypingmoe

SUMMARY

8+ years building web apps, APIs, dashboards, and cloud systems. React, Next.js, TypeScript, Node.js, Python, FastAPI, PostgreSQL, AWS. LLM chatbots, document search, summarization, and workflow automation.

EXPERIENCE

Senior Full-Stack Developer / AI Engineer — TechNova

2021–2025 · Vancouver, BC

- Built SaaS dashboards and AI document workflows with React, Next.js, Python, FastAPI, and PostgreSQL.
- Integrated LLM chatbots, search, and automation—reduced manual work by ~40%.
- Optimized APIs and PostgreSQL queries; cut key endpoint response times 25–35%.

Full-Stack Developer — BrightPath AI Solutions

2018–2021 · Remote

- Delivered SaaS platforms and CRM tools for 10+ clients with React, Node.js, and Django.
- Built REST APIs and integrations with Stripe, Twilio, and SendGrid.
- Improved page load times 20–30% through frontend and database tuning.

Junior Full-Stack Developer — KleinTech

2016–2018 · Remote

- Built websites, admin panels, and e-commerce apps for small business clients.
- Developed responsive UIs and backend features with React, Node.js, and MySQL.

EDUCATION

B.S. Computer Science — University of Manitoba · 2012–2016

TECHNICAL STRENGTHS

Frontend

React, Next.js, TypeScript, TailwindCSS.

Backend

Node.js, Python, FastAPI, Django, REST APIs.

AI / LLM

OpenAI, RAG, search, summarization, automation.

DevOps

AWS, Docker, Kubernetes, GitHub Actions.

CORE FOCUS

- React, Next.js, TypeScript
- Node.js, Python, FastAPI, Django
- PostgreSQL, MongoDB, Redis
- OpenAI, RAG, LLM workflows
- AWS, Docker, CI/CD
